

# FINALLY, A CONCRETE GUIDE TO STOP THE WAR THROUGH CITIZEN ACTION

## ENDING THE WAR IN IRAQ

by legendary activist

**TOM HAYDEN**

*“This book is indispensable to anyone seeking an end to the Iraq War. After more than four decades of working for peace, Tom Hayden’s insight, strategy, and thoughtfulness are more important than ever.”*

—**Tom Matzzie**, MoveOn.org Political Action

*“Tom Hayden brings focus and strategic direction to the supreme challenge of ending this country’s brutal, immoral occupation of Iraq and surrendering the arrogance and lust for domination that underlies the U.S. militarism.”*

—**Reverend Dr. George F. Regas**

As the political debate over ending the war escalates, Hayden describes how citizens can shape public opinion, pressure the pillars of power on which the war rests, and bring our troops home. This book includes a readily accessible blueprint for a safe, orderly and complete withdrawal, combined with a diplomatic offensive to involve the international community in post-war security and reconstruction.

As a member of Progressive Democrats of America, Hayden envisions an effective grassroots movement compelling Congress to withdrawal—and it starts with you.
