Progressive Democrats of America (PDA) was founded in 2004 to transform the Democratic Party and our country. We seek to build a party and government controlled by citizens, not corporate elites - with policies that serve the broad public interest, not just private interests. As a grassroots PAC, PDA operates inside the Democratic Party, and outside in movements for peace and justice.

Presidential Fitness

H.R. 1987 To establish the Oversight Commission on Presidential Capacity, and for other purposes.
Sponsor: Rep. Jamie Raskin

Yes **No** **If not, why not??** (50 word limit)

Yes. Determining whether the President is mentally or physically unable to discharge the powers and duties of office is suddenly relevant, given the narcissistic and unstable personality of Trump. There is likely other historical context for the imperative of this legislation but we need this now more than ever.

Healthcare:

Millions of Americans have no reliable access to health care and millions more have inadequate or overly expensive coverage. Despite spending twice as much as other developed nations on health care, our system performs poorly. Private U.S. insurance gatekeepers soak up one-third of expenditures. Pharmaceutical interests overcharge Americans by avoiding price competition.

War and Peace

Terrorism should be treated as a crime, not as a pretext for war and global military expansion. Nuclear weapons are too dangerous to serve the strategic interests of any country and must be abolished. Initiatives to promote peace, disarmament, and the rule of international law will allow the US military budget to return to the 1998 peacetime level. We must bring our troops home to their families and redirect wasteful military spending to reinvest in America.

Election Integrity:

Big-money domination threatens our election system. Incumbents are unfairly insulated by district gerrymandering. Voters face political and racial obstacles to voting and getting their votes counted. Digital voting systems and internet voting are vulnerable to error and manipulation and defy verification. Only an auditable paper ballot can protect our right to vote.

EMERGENCY AID FOR NATURAL DISASTERS

The climate change-intensified natural disasters of 2017 have laid bare the federal government’s current response as both politicized and racist. How would you identify and legislatively fix underlying structural flaws in federal disaster relief and preparedness funding to ensure more timely, equitable, a effective federal responses to future events? (No more than 250 words)

I’m a believer in leading by convening. First, I would work to clearly define the problem and then I would convene an expert group comprised of leading disaster relief agencies – FEMA, the National Guard, the Red Cross, and others. I’d task this group of experts to identify the flaws in current process and then ask representatives from communities that were hard hit by natural disasters where they saw shortcomings in support. Between these two perspectives – community input and expert understanding – I’d work to write legislation that would address the underlying flaws in the current disaster relief process.

Corporate Rule

Big corporations and banks dominant our political process, spending billions to lobby for programs against the public interest, and to privatize public services for profit. This erodes the middle class, destroys vital services, increases poverty, and undermines our nation. Congress must work to return our government to the people, improve services, stand up to corporate lobbyists, and stop the privatization of public services. We need a

Mass Criminalization

The United States houses 25% of the world's inmates despite having only 5% of the world's population. The prison industrial complex has a vested interest in keeping people locked up. The growth of private, for-profit prisons has placed incarceration beyond public view. The administration of justice system is prejudiced against the poor and minorities.
