Progressive Democrats of America (PDA) was founded in 2004 to transform the Democratic Party and our country. We seek to build a party and government controlled by citizens, not corporate elites - with policies that serve the broad public interest, not just private interests. As a grassroots PAC, PDA operates inside the Democratic Party, and outside in movements for peace and justice.

Healthcare:

Millions of Americans have no reliable access to health care and millions more have inadequate or overly expensive coverage. Despite spending twice as much as other developed nations on health care, our system performs poorly. Private U.S. insurance gatekeepers soak up one-third of expenditures. Pharmaceutical interests overcharge Americans by avoiding price competition.

War and Peace

Terrorism should be treated as a crime, not as a pretext for war and global military expansion. Nuclear weapons are too dangerous to serve the strategic interests of any country and must be abolished. Initiatives to promote peace, disarmament, and the rule of international law will allow the US military budget to return to the 1998 peacetime level. We must bring our troops home to their families and redirect wasteful military spending to reinvest in America.

H.R. 1111 Department of Peacebuilding Act of 2017
Sponsor: Rep. Barbara Lee

Yes **No** **If not, why not??** (50 word limit)

There would need to be a clear distinction between the roles of the Department of State and Department of Peacebuilding as much of what is currently included in the bill would fall under the jurisdiction of State. I think our first step must be recruiting more diplomats and foreign service officials to make up for the deep cuts to the State Department made by the current administration.

Global Warming/The Environment

Environmental degradation and global warming threaten human civilization. Science conclusively demonstrates that global warming results from human activity. Election Integrity:

Big-money domination threatens our election system. Incumbents are unfairly insulated by district gerrymandering. Voters face political and racial obstacles to voting and getting their votes counted. Digital voting systems and internet voting are vulnerable to error and manipulation and defy verification. Only an auditable paper ballot can protect our right to vote.

EMERGENCY AID FOR NATURAL DISASTERS

The climate change-intensified natural disasters of 2017 have laid bare the federal government's current response as both politicized and racist. How would you identify and legislatively fix underlying structural flaws in federal disaster relief and preparedness funding to ensure more timely, equitable, a effective federal responses to future events? (No more than 250 words)

First and foremost, we need to increase funding for both disaster response and preparedness. It's not enough to steer funding for cleanup efforts, we must also work proactively to create systems and protections for communities who are at a higher risk of climate related disasters. This mean assessing the situation on the ground not just by economic impact, but by the lives of the people affected by the disaster. I believe congress and the federal government would do well to model their systems based off of those of the Pentagon. The Army Corps of Engineers is on the front lines of climate change. They don't hesitate because of politics, they are qualified people who are there to address the problem and not play politics. By triaging our approach with a clear structure of delegated responsibilities, I believe we can have a more comprehensive and compassionate approach to natural disasters.

Corporate Rule

Big corporations and banks dominant our political process, spending billions to lobby for programs against the public interest, and to privatize public services for profit. This erodes the middle class, destroys vital services, increases poverty, and undermines our nation. Congress must work to return our government to the people, improve services, stand up to corporate lobbyists, and stop the privatization of public services. We need a constitutional amendment to establish that corporations are not people and that money does not equal speech.

Mass Criminalization

The United States houses 25% of the world's inmates despite having only 5% of the world's population. The prison industrial complex has a vested interest in keeping people locked up. The growth of private, for-profit prisons has placed incarceration beyond public view. The administration of justice system is prejudiced against the poor and minorities.

Education in the USA is unaffordable for the majority of Americans. The securitization of student debt has placed our students at the mercy of corporate predators. Minorities are denied equal access to education. We work to make our education system accessible and affordable to all.
